Ultratech provides a wide range of pharmaceutical formulations in conventional as well as advanced dosage forms of Tablets, Capsules, Syrups, Injections, Nasal Sprays and Metered Dose Inhalers.

Attractive production costs, high quality production standards, availability of product dossiers and complete registration documentation makes Ultratech a suitable partner in the global environment.

New products and combination drugs other than those appearing in our standard product list and restricted to the above dosage forms can be developed in short time cycles and offered accordingly. Dossier support is offered for most of our products.

Our Standard Product range covers most of the therapeutic categories as below:
